Work Experience

Front End Web Developer

idigitalpreneur-Delhi, Delhi

Full-time

1 month notice period

August 2024 to Present

Working as a Frontend Web Developer, responsible for developing modern, responsive, and high-performance websites for multiple in-house brands and client projects. Collaborate closely with UI/UX designers, Laravel backend developers, and the marketing team to build scalable, user-friendly web applications. Focus on clean code, performance optimization, responsive layouts, and engaging user experiences using modern frontend technologies.

Website Designer

Codeflies Technologies Pvt.Ltd.-Noida, Uttar Pradesh

Full-time

March 2024 to August 2024

Worked as a Web Designer with a primary focus on WordPress website development, frontend implementation, and website customization. Developed responsive business websites, landing pages, and CMS-based solutions while collaborating with designers, project managers, and backend developers. Worked extensively with WordPress themes, page builders, plugins, and custom frontend development to deliver high-quality websites for international clients. Codeflies provides web, mobile, AI, and digital solutions for businesses across multiple industries.

Key Responsibilities • Developed and customized WordPress websites for business, corporate, and e-commerce clients.

Web Designer

Hexabells Technologies Pvt. Ltd.-Noida, Uttar Pradesh

Full-time

November 2022 to March 2024

Worked as a Senior Website Designer, leading the frontend development of multiple client projects across various industries. Responsible for designing and developing responsive, high-performance websites, mentoring junior developers, and collaborating with UI/UX designers, backend developers, and project managers to deliver scalable web solutions. Focused on clean code, reusable components, modern animations, and exceptional user experience.

Key Responsibilities • Developed responsive and pixel-perfect websites using HTML5, CSS3, SCSS, Bootstrap 5, JavaScript, jQuery, and GSAP.

Sr. Website Designer

Akonto Payment Solutions Pvt Ltd-Noida, Uttar Pradesh

Full-time

February 2022 to November 2022

Worked as a Frontend Developer at Akonto Payment Solutions Pvt. Ltd., a fintech company providing payment gateway, merchant onboarding, salary disbursement, and financial technology solutions. I was responsible for developing responsive web interfaces, CRM dashboards, merchant portals, and payment gateway pages. Collaborated closely with React and backend developers to build scalable and user-friendly applications while ensuring clean, reusable, and maintainable code.

Key Responsibilities • Developed the company's official website using HTML5, CSS3, Bootstrap, JavaScript, and SCSS.

Sr. Website Designer.

WIE Software Solution Pvt Ltd-Noida, Uttar Pradesh

Full-time

November 2018 to February 2022

WIE Software Solutions was the first organization where I started my professional career as a Frontend Developer. During my tenure, I built a strong foundation in frontend technologies and gained hands-on experience working on real-world client projects. I worked closely with PHP developers, which helped me understand the complete web development lifecycle, coding standards, project structure, and developer-friendly practices.

Key Responsibilities • Developed responsive and pixel-perfect websites using HTML5, CSS3, SCSS, Bootstrap, JavaScript, and jQuery.

- Converted UI/UX designs from PSD, Photoshop, Adobe XD, and Figma into fully functional web pages.
- Built websites with and without Bootstrap, ensuring responsiveness across all devices and browsers.
- Collaborated with clients to understand business requirements and deliver tailored frontend solutions.
- Worked closely with backend developers throughout the development phase to ensure seamless frontend-backend integration.
- Created and maintained HTML templates for SEO and digital marketing projects.
- Redesigned and modernized existing websites built on CodeIgniter, Laravel, Magento, React, and WordPress.
- Followed clean, maintainable, and developer-friendly coding practices.
- Delivered multiple projects within deadlines while maintaining high-quality standards.

Projects / Papers Presented

Lanxers - Corporate Business Website

<http://lanxers.com/>

2026

Developed the frontend for the Lanxers corporate website, a modern business platform focused on delivering a professional and engaging digital presence. Built responsive, pixel-perfect web pages from Figma designs using HTML5, CSS3, SCSS, Bootstrap 5, JavaScript, and GSAP. Implemented smooth

animations, interactive UI elements, and optimized layouts to ensure an exceptional user experience across all devices. Worked closely with the Laravel backend team to prepare reusable frontend components and support seamless integration.

Key Responsibilities • Developed responsive and mobile-first webpages using HTML5, CSS3, SCSS, Bootstrap 5, and JavaScript.

NamAstro - Astrology & Spiritual Guidance Platform

<https://namastro.com/>

March 2025

Developed the frontend for NamAstro, a modern astrology and spiritual guidance platform offering Kundli generation, horoscope predictions, online consultations, numerology, and astrology courses. Built responsive, pixel-perfect, and high-performance web pages using HTML5, CSS3, SCSS, Bootstrap 5, JavaScript, and GSAP. Collaborated closely with the Laravel backend team to integrate dynamic features and create a seamless user experience across desktop and mobile devices.

Key Responsibilities • Developed responsive and mobile-first webpages using HTML5, CSS3, SCSS, Bootstrap 5, and JavaScript.

Astro Diva Pratihast Website

<https://divapratihast.com/divapratihastnew/>

February 2025

Developed a fully responsive and interactive frontend for the Astro Diva Pratihast website using HTML5, CSS3, SCSS, Bootstrap 5, JavaScript, GSAP, and Animate.css. Implemented modern UI/UX principles, smooth animations, responsive layouts, optimized page performance, and cross-browser compatibility to deliver a seamless user experience across desktop and mobile devices. Collaborated to convert design concepts into pixel-perfect, production-ready web pages.

IDigitalPreneur - E-Learning Platform

<https://www.idigitalpreneur.com/>

June 2021

Developed the frontend of the IDigitalPreneur website, a modern e-learning platform that provides digital skill development, online courses, mentorship programs, and career-building resources. Built responsive, high-performance, and user-friendly web pages by converting Figma designs into pixel-perfect interfaces using HTML5, CSS3, SCSS, Bootstrap 5, JavaScript, and GSAP. Worked closely with the Laravel backend team to integrate dynamic content and ensure a seamless user experience. The platform is designed to help learners build practical digital skills and access structured online learning experiences.

Key Responsibilities • Developed responsive and mobile-first webpages using HTML5, CSS3, SCSS, Bootstrap 5, and JavaScript.

WIE Software / WEB IT NAMO - Corporate Website

<https://www.webitnamo.com/>

2018

Developed and continuously maintained the official WEB IT NAMO corporate website, showcasing the company's web development, mobile application development, digital marketing, and IT services. As this was the company's primary business website, I was responsible for creating responsive, user-friendly, and visually appealing interfaces while ensuring regular updates, performance optimization, and seamless user experience. The website serves as the company's online portfolio and service platform for clients worldwide.

Key Responsibilities • Developed the complete frontend using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
